**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 7, delete the period.

Claim 1, line 8, insert a period after formula (II).

Art Unit: 1626

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed process for the preparation of 1,3-dihalo-substituted benzene derivatives of the formula (II). The closest prior art process is disclosed in Lock. The process disclosed therein differs from the claimed process in that the alkaline medium and the 2,6-dihalo-substituted benzaldehyde are added at the same time instead of separately. The reference provides no motivation to modify the process disclosed therein to arrive at the claimed process. In addition, the comparative data on pages 6 and 7 of the specification shows that the claimed process gives better yield than the Lock process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.
